Why should you take notes?

- To minimize your “rate of forgetting”
 - ☑ Dr. Walter Pauk, Cornell University Reading Center
 - ☑ Don't take notes = **Forget 60 % in 14 days**
 - ☑ Take some notes = **Remember 60 %**
 - ☑ Take organized notes and do something with them = **Remember 90-100% indefinitely!**
- The More the Better!

Cornell Notetaking

- Dr. Pauk created the Cornell Notetaking System, which is used at Stanford, UCLA's School of Engineering, most Law Schools, and of course, at Cornell University
- The Cornell System requires the student to review notes and think critically after learning has taken place
